

**DIVISION 14 – CONVEYING SYSTEMS
SECTION 14200 - ELEVATORS**

14200-1

DESIGN STANDARDS

1. The University has established a “Standard Specification for Rice University Traction and Hydraulic Elevator(s)” which is included as Appendix I. The “standards” provide a broad outline of the required equipment and installation but does not describe the details of design and construction.

The Architect will follow these “standards” in addition to the requirements of this section for the selection, design, and specification for their specific project.

- 1.1 The Architect shall advise the University’s Project Manager of all project requirements that require variation from the standard specification for Rice University Traction and Hydraulic Elevator(s).
 - 1.2 All variations from these standards must be approved.
2. Limited Use Limited Access (LULA) equipment is not considered desirable to solve accessibility problems and will only be considered as a solution of last resort and will require approval of Rice’s Project Manager.
