Appendix H
FACILITIES ENGINEERING AND PLANNING
EQUIPMENT STATUS FORM

Date: _______________    Requestor: _____________________

Equipment Service Status: ☐ In Service ☐ Out of Service ☐ Revise
Equipment Condition: ☐ Acceptable ☐ Marginal ☐ Needs Replacement

Equipment ID#: __________________________

Building: ___________________________________ Floor: ___________ Room: _________
Description: _________________________________ Area Served: _____________________
Serial #: _________________________________ Task Number(s): __________________
Model #: __________________________________ PM Performed by Craft: ____________
Manufacturer: _______________________________ PM Frequency: (every)______________
Capacity: _________________________________ In Service (Startup) Date: ___________
Vendor: ___________________________________ Replacement Cost: $_______________
Belt/Filter Size(s): __________________________ Covered by a warranty: Yes ( ) No ( )
Warranty Expiration Date: ______________________ Warranty Vendor:  ________________
Warranty Covers: _______________________________________________________________
Comments: ___________________________________________________________________
Safety Notes: __________________________________________________________________

Component Information

Description: _____________________________   Description: _____________________________
Manufacturer: _____________________________ Manufacturer: _____________________________
Model #: _________________________________ Model #: _________________________________
Serial #: _________________________________ Serial #: _________________________________
Frame: _________________________________ Frame: _________________________________
HP: ________________________________ HP: ________________________________
Voltage: ________________________________ Voltage: ________________________________
Phase: ________________________________ Phase: ________________________________
AMPS: ________________________________ AMPS: ________________________________
RPM/ROT: ________________________________ RPM/ROT: ________________________________
Bearings: ________________________________ Bearings: ________________________________
Impeller/Shaft: __________________________ Impeller/Shaft: __________________________
Capacity: ___________________________ Capacity: ___________________________
Spec. Info: __________________________ Spec. Info: __________________________
